Are you Ready for Some Football?!

Fire up the grill, turn your music up, let the beer flow and let's get ready for some football! Tailgating season is in full swing and we've got some tips to take your favorite team's outdoor party to the next level.

The Davy Crockett Package Grill from Green Mountain Grills, available at FMI Equipment, is the ULTIMATE Tailgate Package. New WiFi compatible, digital temperature controller, meat probe, 1 bag of pellets and 1 rub at the kick butt price of just \$339! Don't forget to stop by their booth because these people know their grills!

The perfect spices are close at hand at Spokane's own Spiceologist. If you haven't tried their blends, then you're really missing out! With rubs like Chile Margarita, Black Magic, Purple Haze and Cowboy Crust, where can you go wrong? You can find more information about Spiceologist and some delicious recipes by visiting www.Spiceologist.com. You can pick up your own selections at many retailers throughout the Spokane area including Great Harvest Bread Co. in Liberty Lake, Huckleberry's Natural Market, Main Market Co-op, Red Rolling Pin, Rocket Market and Super 1 Foods.

Worried about keeping your hot food hot? You can easily turn a cooler into a warming oven using foil and hot bricks. Foil packs up easily and you can just toss those bricks on the grill for ensured toasty brats. Don't forget to pack some heavy duty tongs or some extra thick oven mitts to remove those bricks. (While we're at it, make sure to keep a first aid kit handy at all times. You never know what might happen when the festivities start up.)

Listening to music and grilling some burgers is a lot of fun, but don't you want to play some games while waiting for the big game? Try some portable corn hole! These kits are easy to transport and

are tons of fun for everyone. It's even more fun to paint the equipment in your favorite team's colors and channel some rivalry.

Now that the temperatures are starting to dip, you'll want something to keep you warm all day. You can bring a variety of soups and chili, prepared ahead of time, in thermoses. Pack some tin mugs for easy eating and in between courses, hang onto that thermos to keep your hands warm! Do you think you'll be able to win that ultimate game of corn hole with numb hands? We didn't think so!

Don't get caught with the same-old boring six pack. Kick it up a notch with a growler of some local brews. The Inland Northwest is full of some fantastic craft beer and local breweries. The Growler Guys, The Flying Goat, Budge Brothers, 12 String Brewing Company and many more local breweries offer growler fills which help keep your beer from getting flat. I mean, come on. Who likes flat beer?

Tailgating doesn't mean you have to miss the other football games. A lightweight flat screen TV is easily portable, and with a power inverter and an over the air antenna you can plug into power and keep an eye on the other games currently airing. If your favorite team is playing on cable though, you're going to have to invest in a portable satellite dish set-up, but being the envy of the parking lot eases the sting of the satellite bill.

Lounge in style during your festivities with TravelChairs Travel 3-Person Bench. It folds up and fits into your car or truck easily, and takes no time at all to set up. This is the perfect solution for group seating. This bench, and more options, are available at REI Spokane. For more information visit www.REI.com/Spokane

It's important to stay hydrated throughout the day. The easiest way to tote along some water is by freezing water bottles. You can use them in place of ice in your coolers so that you have cold water to drink after they melt.
